

Mission to Ukraine

Meet our Staff

May 17, 2010

We serve the spiritual, emotional, and physical needs of women with crisis pregnancies, and their children, children with special needs and their families, and orphans in Ukraine with the love of Christ.

Sveta Yurkiv The Story of Her Calling

Sveta serves God as a nurse at both Mission to Ukraine and her church. In her spare time she enjoys helping people.

Pure Curiosity

About 10 years ago, out of curiosity I stopped by Mission to Ukraine, which at that time was called the Women's Center, to find out what services they provided. One of the counselors talked to me and invited me to her church home group. At the center I sensed an atmosphere of trust and peace. When I came to church, I saw people different from the rest of those I used to come across every day. They reflected love, care, and attention. It became a testimony of God's love for me. About 2 months later, I committed my life to God.

Pressure to Move

At that time I worked as a nurse for a local hospital. I loved my job in spite of the challenging schedule and even bigger moral pressures. With the change of a new boss I started looking for a new job. I didn't have skills to do anything else, and so I turned to God to bless me with a job that would bring me joy.

Doing my Favorite Thing in the World

Soon after, quite unexpectedly, I received an invitation for an interview from the MTU head manager who attended the same church. I was offered a position of a nurse! Thus, since December 2004, I've been working at MTU doing my favorite thing in the world. I love to be useful and helpful, especially to those who need it most. I delight in working with the US teams. I thank God for my new position and for all people involved in this ministry.

Current Needs:

Our missionaries depend upon faithful givers like you. If God moves you to support Sveta or any of our staff with a monthly or one-time gift, please contact the U.S. office or visit our new website to make a secure gift online.
